NEW YORK CITY VOTERS OPPOSE IRAN NUCLEAR PACT, QUINNIPIAC UNIVERSITY POLL FINDS

New York City voters oppose 43 – 36 percent the proposed nuclear agreement with Iran, according to a Quinnipiac University poll released today.

Jewish voters oppose the proposed pact 53 – 33 percent, the independent Quinnipiac (KWIN-uh-pe-ack) University Poll finds. Opposition is 70 – 15 percent among Republican voters and 51 – 32 percent among independent voters, while Democrats support the pact 43 – 33 percent.

Manhattan voters support the nuclear deal 48 – 27 percent, and Brooklyn voters are divided with support at 40 percent and opposition at 43 percent. Opposition is 42 – 26 percent in The Bronx, 49 – 33 percent in Queens and 76 – 11 percent in Staten Island.

Voters are divided on whether the deal would make the world safer or not as 40 percent say safer and 42 percent say less safe. Jewish voters say 51 – 37 percent the pact would make the world less safe.

“New York City voters agree with U.S. Sen. Charles Schumer in his opposition to the proposed Iran deal,” said Quinnipiac University Poll Assistant Director Maurice Carroll.

“But the man who would be Senate Democratic leader should note that his fellow Democrats support the deal.”

From July 30 – August 4, Quinnipiac University surveyed 1,108 New York City voters, with a margin of error of +/- 2.9 percentage points. Live interviewers call land lines and cell phones.

The Quinnipiac University Poll, directed by Douglas Schwartz, Ph.D., conducts public opinion surveys in Pennsylvania, New York, New Jersey, Connecticut, Florida, Ohio, Virginia, Iowa, Colorado and the nation as a public service and for research.
